- Some providers may cover urgent care, inpatient hospital care, primary care and prescription drugs

What Does CICIP Cost?

- You are responsible for co-payments for services you receive
 - Co-payments will vary depending on the medical services you receive
- Your family's income and resources determine what you pay
- You are responsible for medical services or tests not covered by your CICIP provider
- Your CICIP discount only applies to services received by a qualified CICIP provider
- Your CICIP discount applies after any health insurance you might have
- You pay the lower of remaining charges that your health insurance does not cover, or the CICIP co-payment, whichever amount is lower

Does CICIP Count As Health Insurance?

No. Since CICIP is not a health insurance program, it does not satisfy the new individual responsibility (individual mandate) requirement for people to have health insurance beginning January 1, 2014. This means that you won't be counted as having health insurance if you only have CICIP and you may be charged a penalty for not having health insurance.

Beginning January 1, 2014, if you or your family are currently enrolled in CICIP, you might now be eligible for Medicaid. You can find out if you or your family qualify for Medicaid, CHP+ or other programs like food assistance by calling toll free: 1-800-221-3943 or TDD: 1-800-659-2656 or by visiting www.colorado.gov/hcpf/how-to-apply.
